The agencies and Corporations involved in FBI Cointelpro

MK Ultra Home Targeted.one Targeted Justice EDWARD SNOWDEN FILES

This website has been created to spread information about civilians targeted in the renewed FBI Cointelpro Operations that were exposed in the 1970's. The program at that time had ran illegally for over three decades. The renewed operations not only utilizes the tactics and strategies learned in the FBI/ CIA's previous program, it has as well been combined with the Human Experimentation programs that have ran in the US for over 100 year. The gains in research in all fields is utilized to improve upon the program that targeted many innocent civilians in the past. The use of drugs and poisons is now combined with the use of high grade military technology.

[//en.wikipedia.org/wiki/COINTELPRO](https://en.wikipedia.org/wiki/COINTELPRO)

[//en.wikipedia.org/wiki/Unethical_human_experimentation_in_the_United_States](https://en.wikipedia.org/wiki/Unethical_human_experimentation_in_the_United_States)

Civilians that have survived these assaults have for decades called themselves Targeted Individuals. This terminology, though descriptive, is now used to discredit the individuals that use it, just as the term gang stalking is used to discredit the large number of civilians now targeted in what was and still is the FBI's Gang Stalking program.

Many of the individuals I have met, including myself have undergone very traumatizing events, this is psychological warfare carried out by the same agencies that were utilized in the original program. Much of the Domestic policy that has been created post 9/11 has given the government agencies involved in this program the powers and secrecy which allows them to carry this out. Cooperation with corporations which also were involved in the Cointelpro operations, has allowed this program to operate in near secrecy for many decades. Tech companies and social media platforms monitor, block, censor manipulate and control information at every step.

All Data and cellular communications is monitored, all modern surveillance technologies are utilized to monitor civilians 24/7 allowing the participants in the criminal activities to carry out there crimes unimpeded. Microwave surveillance was used against the US in the 1950's when Russia was found to be bombarding the US embassy in Moscow with microwave radiation for this same purpose.

DARPA took over research into microwaves, at this time this agency was named ARPA. We can find in DARPA's research the scientific backing to support the claims of the civilians that are found to be outlandish. This technology and the experimentation that is taking place poses a great risk, not only for those currently targeted in this operation, but for the population as a whole.

Many victims of this program report hearing voices, when this is done it is immediately used to discredit these individuals, institutionalize them, to further drug and experiment on them ignoring the fact that microwaves were first used in Allan Freys 1961 microwave auditory experiment to transmit audio across a room into the cerebral cortex of a test subjects brain, the test subject in 1961 could repeat nine out of ten words transmitted.

This technology has progressed as billions of dollars in research has been conducted in experiments that have now spanned over sixty years. In the below linked articles we will find that DARPA using EF, RF and EMF frequencies, and the fields produced hope to now complete the transmission of pictures as well as videos into a test subjects brain.

The use of nanotechnology is found in DARPA wanting to introduce nano transducers into the test subjects body by way of injection, much like nanotechnology found in Covid-19 vaccines will be injected into humans.

Nano-enabled biosensing systems for intelligent healthcare: towards COVID-19 management

The testing of drugs is also found in this DARPA research to raise the Dopamine levels in the human brain. Many illegal and prescription drugs also result in elevated dopamine levels.

We find many reports of heavy metal poisoning among those targeted which results in neural toxicity, there are many vitamins and minerals one can take to counteract this.

As we see in the above research articles, John Hopkins University is involved in the research currently taking place, they also are the institution that the Covid-19 stats are formulated and reported to the public. John Hopkins is located about 50-60 miles from Fort Detrick where we find the CIA medical division headquarters. This is where the CIA MK Ultra project was based as well as the testing ground for the some of the Covid-19 research and also where the 9/11 anthrax was produced.

"

Darpa has awarded funding to six organisations to support the Next-Generation Nonsurgical Neurotechnology (N3) program.

Battelle Memorial Institute, Carnegie Mellon University, Johns Hopkins University Applied Physics Laboratory, Palo Alto Research Center (PARC), Rice University and Teledyne Scientific are among the multidisciplinary teams who are developing the interfaces.

In April 2019, researchers from UC Berkeley and the US Institute for Molecular Manufacturing (iMM) predicted that exponential progress in nanotechnology, nanomedicine, artificial intelligence and computation will lead to the development of a "human brain/cloud interface" (B/CI), which connects neurons and synapses in the brain to vast cloud-computing networks in real time.

The technologies needed to meet the goals of the N3 program would have to move past current voltage recording capabilities and would have to include a variety of atypical signals like magnetic fields,

The American Psychological Association, torture and the Nuremberg doctors' trial With contract tracing expanding the stasi like community policing program created under the Clinton/ Biden administration, and presidential candidate Biden calling for psychologist or psychiatrist to join the law enforcement agencies in the USA, we see a system being created which allows our intelligence agencies to attack any activist, whistleblower, civilian that is deemed a "domestic threat" at will, therefore eliminating any opposition as these terrorist agencies pursue their course of total domination. Biden: Police Need 'A Psychologist or Psychiatrist to Keep Them From Having to Use Force' Cointelpro intended effects: The intended effect of the FBI's COINTELPRO was to "expose, disrupt, misdirect, or otherwise neutralize" groups that the FBI officials believed were "subversive" by instructing FBI field operatives to: 1. Create a negative public image for target groups (for example through surveilling activists and then releasing negative personal information to the public) 2. Break down internal organization by creating conflicts (for example, by having agents exacerbate racial tensions, or send anonymous letters to try to create conflicts) 3. Create dissension between groups (for example, by spreading rumors that other groups were stealing money) 4. Restrict access to public resources (for example, by pressuring non-profit organizations to cut off funding or material support) 5. Restrict the ability to organize protest (for example, through agents promoting violence against police during planning and at protests) 6. Restrict the ability of individuals to participate in group activities (for example, by character assassinations, false arrests, surveillance) Cointelpro methods used: FBI used five main methods during COINTELPRO:	Corporations Congressmen & the Directed Energy Program Treason at AT&T Treason at L3Harris Treason at Lockheed Martin Treason at Raytheon Documents Brennan Center for Justice Cease & Desist – Letter DSenate Subcommittee on FBI's Official Perp Manual Handouts & Flyers Homeland Security Advisory Council The Linebackers of Treason Training Manual for Gangstalking Legal Affidavits Akwei vs NSA (1992) International Citizens Legal – Court Cases Legal Information Letter by Attorney, Jon Wilson Letter from Senator Shaheen Private Prosecutions Victim's Rights Legal Actions DHS – Cease & Desist Letter FBI & DOJ – Cease & Desist Letter General Raymond – Cease & Desist Letter Grievances Letter to the CFR Mandamus Petition National Fusion Center Association Links Medical Bioeffects of Non-Lethal Weapons Biomarkers Dr Daniel Lebowitz, M.D. Illegal Implants Letter from Dr Eldon A. Anchorage Police Department, Rape, Murder

A former Anchorage police officer charged with downloading child pornography will face a jury trial. Months of pretrial motions illustrate the difficulties of proving possession of electronic data. Recently convicted case titled Worden v. the state of Alaska, ... Continue reading

1. **Infiltration:** Agents and informers did not merely spy on political activists. Their main purpose was to discredit, disrupt and negatively redirect action. Their very presence served to undermine trust and scare off potential supporters. The FBI and police exploited this fear to smear genuine activists as agents.
2. **Psychological warfare:** The FBI and police used myriad "dirty tricks" to undermine progressive movements. They planted false media stories and published bogus leaflets and other publications in the name of targeted groups. They forged correspondence, sent anonymous letters, and made anonymous telephone calls. They spread misinformation about meetings and events, set up pseudo movement groups run by government agents, and manipulated or strong-armed parents, employers, landlords, school officials, and others to cause trouble for activists. They used **disinfo** to create suspicion about targeted activists, sometimes with lethal consequences.
3. **Harassment via the legal system:** The FBI and police abused the legal system to harass dissidents and make them appear to be criminals. Officers of the law gave perjured testimony and presented fabricated evidence as a pretext for false arrests and wrongful imprisonment. They discriminatorily enforced tax laws and other government regulations and used conspicuous surveillance, "investigative" interviews, and grand jury subpoenas in an effort to intimidate activists and silence their supporters.
4. **Illegal force:** The FBI conspired with local police departments to threaten dissidents; to conduct illegal break-ins in order to search dissident homes; and to commit vandalism, assaults, beatings and assassinations. The objective was to frighten or eliminate dissidents and disrupt their movements.
5. **Undermine public opinion:** One of the primary ways the FBI targeted organizations was by challenging their reputations in the community and denying them a platform to gain legitimacy. Hoover specifically designed programs to block leaders from "spreading their philosophy publicly or through the communications media". Furthermore, the organization created and controlled negative media meant to undermine black power organizations. For instance, they oversaw the creation of "documentaries" skillfully edited to paint the Black Panther Party as aggressive, and false newspapers that spread misinformation about party members. The ability of the FBI to create distrust within and between revolutionary organizations tainted their public image and weakened chances at unity and public support.

It would not be hard to imagine that the CIA who has a long history of influencing elections in foreign countries through psychological warfare operations as well as many alleged assassinations put their expertise to use in the US. Of course almost 50% of Americans question the JFK coup, the most likely alternative theory would suggest the CIA played a leading role in this along with help from the FBI, police, etc. As we find these agencies were long involved in the illegal FBI Cointelpro operations at the time, which included the assassination of political activist, whistleblowers, civilians, the apparatus was in place.

Along with political activist admittedly assassinated, we find these agencies targeting many other prominent individuals at the time, Malcom X, Martin Luther King, etc. also Assassinated.

Once again we find the FBI Cointelpro operations being carried out for decades, just as the exposed program was carried out from the 1950's until the 1970's. This time on a much larger scale committing far more crimes with many more agencies involved.

In 2012 there was a FBI and Police raid on my property (6045 and 6059 Blackberry Street Anchorage Alaska), the warrant was for tenant of mine, (Steve Landers.) Steve was renting an upstairs mother in law apartment in a separate house on the property, 4-5 other homes and businesses were raided on that day in Anchorage as part of this operation. I had known the tenant (Steve) for 36 years at that time. There were about 35-40 agents on my property for close to nine hours.

There was cannabis found in a room under the garage which was located under the apartment Steve was renting, I had knowledge of past activities of Mr Landers which led me to tell him repeatedly to never bring contraband that was intended to be grown, bought or sold on my property. The cannabis found on my property was brought to the residence on the night before the raid.

I awoke the morning after the raid and as I started my truck, many vehicles on the street where I lived started and closely followed me. No matter where I went, how fast or slow, I had what seemed to be a convoy now in pursuit. This did no end, this was not covert surveillance, this was a action taken by government officials to let me know I was watched every minute of every day. This has now continued for over eight years through many states. This is terrorism, no criminal charges were ever filed against me yet I am being persecuted year after year.

In 2016 the FBI contacted me concerning what had been a friend/ acquaintance of 44 years, they said that the Steve Landers had stated that I was involved in a conversation with him and John Vendetti, Steve had stated to the FBI that John had said that he had sex with a minor, (his cousin.) I have a very good memory and this conversation had never occurred and I had no reason to believe these allegations were true. This is after Steve's alleged release from federal imprisonment, (I did not keep track of his case as I was angered he had brought this into my life and I was now being stalked.) Before the contact in 2016 with FBI, John had stated that he was receiving letters with block writing trying to blackmail him for a large sum of money, we had came to the conclusion that this might have been Steve, the threat was to send more block letter letters to his surrounding neighbors unless the payment was received. Although I had no reason to believe the allegations about John at the time, he later made a statement that made me question his views on such a thing. (Questioning if the legal age of having sexual relations with a child was appropriate. My response was, you have to set a age limit that is law, and 18 seemed reasonable to me.)

Both Steve and John had been arrested for cannabis production prior to the 2012 raid on my property, Steve about 4-5 years prior, John about 7-8 years prior, they both called me as the police raided there properties looking for advice. I did have knowledge of activities, yet had not profited in any way from the business dealings of these people. Growing cannabis at that time in Alaska was illegal for the quantity of plants that were being produced.

No charges were ever filed against me at any time.

It was within months of the FBI contact in 2016 when the all out assault began on my life and property. I soon after fled to Texas where in Spring once again I found the clerk at the store closest to my home stating that two FBI agents had arrived shortly after my last trip there to ask questions about me. There is no doubt the FBI has always been linked very closely to the stalking and terrorism that has followed me 24/7 since 2012, as well as the surveillance that had watched over me for many years prior.

6213 Garden Acre Drive Fort Worth Stalking

by Keith Lankford on September 16, 2020 at 8:43 pm Posted In: Assault, Direct Energy Weapons, Electronic Warfare, Homeland Security, NSA, Police Corruption, Rape, Stalking, Uncategorized

Harris County Police ex deputy seemingly linked to assault and rape that the Stalking activity that occurred prior to this crime now follows this woman across Texas. This points to a very expensive and highly organized stalking campaign similar to the FBI's Cointelpro.

Sarah rented a RV spot at this location hoping to escape the stalking that seems to follow her everywhere she goes. To be beaten and assaulted, Raped in Houston Texas, then flee to Fort Worth hundreds of miles away only to find the place she resides at surrounded by individuals that seem to want to harass her 24/7 seems nearly an impossibility.

After seeing the many pictures of the stalking she had encountered when she first arrived in Fort Worth it was hard for me to believe that this was not happening. After her arrival at this RV park she communicated her situation which left little doubt it had once again resumed. This is when I can to Fort Worth to witness and document this.

The above pictures are of what would obviously appear to be stalking when Sarah 1st arrived in Fort the Worth

Upon arrival I found cars following me with their bright lights on anytime I left, as well as approaching traffic which also seemed to use their brights. Day or night in Arlington Texas.

when I exited. I was away from my car less then 3-4 minutes.

I decided to stay next to her trailer and observe what was happening at her residence, Sarah has a few dogs that were either on a dog run or in an enclosed area at the entry of her RV. The first two nights there were numerous times that these dogs were alarmed and began barking, when I walked to the front of her RV, the barking would cease. So of course I started looking and listening for the cause of this. I recorded this as I went to further document what was happening.

What I found was neighbors on all three sides making noises on their property to incite the dogs to bark. This was just the beginning.

On the third day at her residence, the new renters of the spot right next to Sarah's arrived, within hours the dogs were barking nonstop, hour after hour, when I would approach the front of her trailer I found these neighbors standing at their car, which was on view of the dogs. It must be realized that these dogs do not bark for no reason, as I also recorded many hours of silence at this park. I noted the interaction, and the fact that when I would walk and view the cause of the disturbance the barking would cease, only to resume in a hour or two.

The following morning I awake to constant barking, I took a table and chair and sat right next to Sarah's RV feet from these neighbors, I was out of sight of the dogs. I started conversation with them, explaining the stalking and harassment that had occurred in Sarah's life, they had little to say, yet as I sat there for close to 1 1/2 hours, oddly the dogs once again were completely quiet?

After talking to these renters, explaining the assault on Sarah, the noise harassment, horn honking ect in the early evening of 09/10/2020, these neighbors now began honking their horn intermittently in the evening.

When nightfall came, the dogs once again were agitated, as noted in recordings, I would state before I walked into view of the drive that as soon as I did, the barking would cease. It did.

What I observed was one of the neighbors in the rented space who were said to be Meth users, sitting in front of his RV flashing a light in this direction to apparently agitate the dogs resulting in the constant barking, as well as this neighbor there were three young adults that walked from a house to the right of the RV park back and forth to the suspected drug users RV.

Later that night the dogs were extremely agitated, I was ready, had one on a leash and he immediately ran to an area right in front of Sarah's trailer and tracked a scent to the road where these three men were standing, as I approached they began walking to there alleged residence with me directly behind them, they entered their residence and I returned to Sarah's RV. This has gone in till the present date 09/10/2020

I was relating these incidents to a friend I had met in Houston along with many other contacts I have, this friend, Jason Foust, offered to drive down from Louisiana to see if he could be of help.

Jason arrived on the night of 09/09/2020, he arrived late in the evening. Sarah was tired and sleeping, so we sat out and decided to have a few beers and observe the situation once again. Mainly just talking about these events and others over the incessant barking of the dogs. I was pretty used to this at this point so did not rush to put a stop to it, instead just enjoyed a few beers until it grew to agitate me enough to take action

So I told Jason I was going to put a stop to this and proceeded to walk to the front of Sarah's trailer again, what I observed was a truck backed into the next door residence on the right of this RV park as you exited the driveway, the occupants of this vehicle were sitting in the truck flashing the brake lights on and off in an apparent effort to once again agitate these dogs to bark. As I approached the vehicle the occupant quickly drove off only to return later at night.

Below is a audio recording that sounded as if it came from the occupants of this RV honking. I was in front of Sarah Degeyters RV one space away. Their horn honking repeatedly on 11:16 PM 09/15/2020, my phone time is one hour off, that is why I said this occurred on the 16th. This followed the harassment and interaction with the neighbors and the above police recording. //www.youtube.com/embed/jEXAuZwvVmg

I did talk to these neighbors after they moved in, I had awakened to the dogs barking, this went on for a couple of hours so I moved a table and chair to the side of Sarahs RV that faced these neighbors, they had been outside so I proceeded to talk to them, explaining the assault that had taken place in Houston. As soon as I had moved to this side of the RV which was out of the dogs sight, all barking stopped, and they remained silent for the 1 1/2- 2 hours I sat there. I had encountered the same commotion the previous night and when I went to the front of Sarahs RV I saw these neighbours by their car with flashlight which was apparently causing the dogs to bark.

After I saw the neighbors the night before, the dogs were silent again, I then moved a chair in view of the driveway where I could observe any activity. A lot of the constat commotion that was causing the dogs to bark was coming from neighbors walking between the RV at the end of the park, closest to the road to a house that is a few houses down the block, all the people walking back and forth carried flashlights that they would shine along the fence line which would cause the dogs to bark.

After Jason Foust had arrived later this week, once again constant barking led me to see what was causing this commotion late at night, I headed down the driveway after observing the pictured silver truck below backed into the drive at his residence, occupied with the occupant siting in the vehical flashing the brake lights on and off repeatedly, the flashing red lights were the cause of the commotion. As I viewed this as rather unusual activity I was going to walk up to the truck to inquire about thus, and see if this action could be stopped as it was causing loud barking as residents were trying to sleep, as soon as I approached the truck it sped off and did not return till later this night. I soon found the occupants of the RV next to Sarahs which had stated that they had arrived from the Orange County and Riverside area of California having regular interaction with the residents of this property.

I had in conversation stated to these individuals that along with the apparent stalking that was being carried out against Sarah Degayter, I too, as well as Jason Foust were undergoing simular stalking, harassment like activities, these incidents seemed to follow us wherever we traveled, state to state, or city to city. I also informed them that I regularly now recorded these incidents and one of the forms of harassment was constant horn honking. (I will embed some of the video and audio documntation to this at the bottom of this page.) Oddly enough, after I had mentioned this to the occupants of the neighboring RV they came out to their vehicle and proceeded to honk their horn a few times, I was sitting watching so I approached them and inquired what the purpose of this honking was, this was a couple, the man was standing at the rear door on the driver side unloading something from the vehicle apparently, when approache as he stood with door open, he stated that he was locking his door, I thought this was odd for the door was open and he was still unloading, i mentioned this and he replied with a few sentences of profanity, and proceeded to honk the horn many more times. A package that was delivered to Sarahs and retured to the occupants of this RV lead me to believe the mans name is Daniel Dudden.

The same harassment that occurred daily in Fort Worth Texas starts again the first hour I arrive in the Woodlands Texas. This time the front desk clerk pictured below stated that her battery had died causing her car alarm to go off, it apparently died twice within twenty minutes. After the second series of horn honking I called the police who responded, she explained what happened, and I explained that this is odd for I have over 50 videos of this occurring everywhere I go and that this is a continuing harassment campaign that started in 2012. Further explaining this is part of the FBI Cointelpro operation currently being used in the US to target activist, whistle-blowers and civilians, the sheriff deputies changed the subject and we talked about Alaska before they left. No action taken. This occurred between 11:30 PM and 12:00 AM at night.

I had arrived in the Houston area to make a court appearance for the charges I face after being set up by the Harris County Police. The above horn honking harassment occurred within the first hour of arrival.

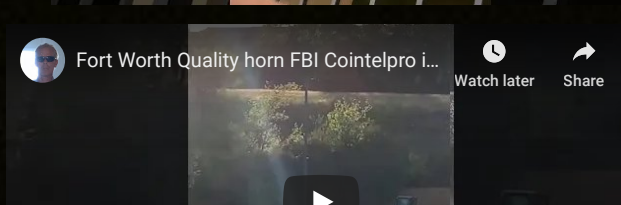

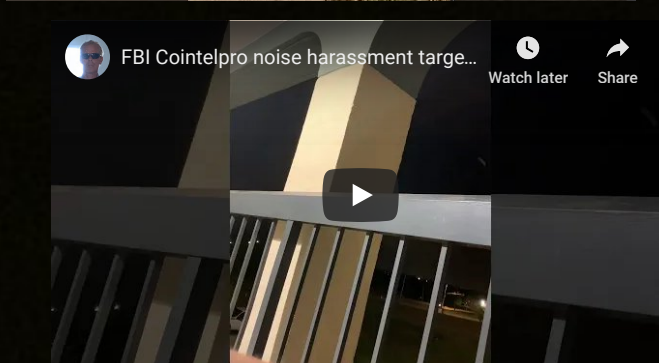

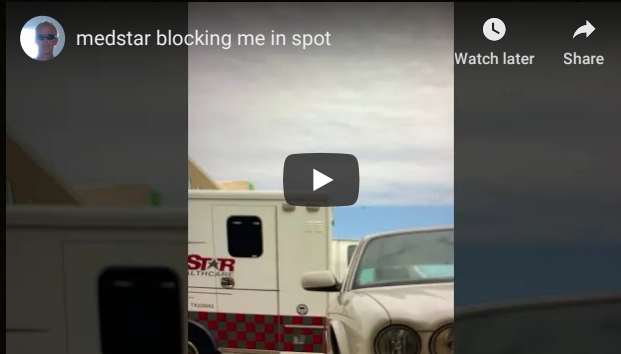

The below harassment occurred as I went to court for charges filed after stalking by Harris County Police.

Immediately after release from Harris county Jail I was forced to sell my home for first cash offer due to continued stalking by Harris County Police I encountered the below horn honking campaign as well as stalking by Harris County Fire shown in below videos.

After this stalking by Harris County Police occurred, where a deputy trespassed daily, blocked me in drive of my residence, fabricated charges after trespass which led to false imprisonment, I encountered stalking by the Harris County Fire department, Noise Harassment, Constant police and Fire, EMS siren and light harassment, horn honking harassment across Texas.

After I travelled to Fort Worth to assist stalking and rape victim Sarah Degeyter I find my vehicle blocked in again for close to 1/2 hour at Quality Inn in Fort Worth Texas

Note: Painted on garage was reference to Homeland Security Stalking. As with the case of murdered activist John Lang who died of a stabbing as his home was burned down had also barricaded himself in his home to try to protect himself from the constant FBI Cointelpro break-ins that occurred in the exposed program and occur daily in America today.

I was not arrested, though I was attacked by Harris County Police, Hospitalized against my will, had \$2300.00 stolen from me that would not be released until I signed forms stating I would not hold this hospital liable weeks after release from hospital with no money, shirt, or shoes, to live in my burnt down home until I rebuilt it.

All tools, documentation stolen, 5ft by 3ft rolling toolbox, packed with snap on and high quality tools, construction tools, etc. Just as all documents, tools, brand new appliances not even unwrapped, personal belongings were again stolen while falsely imprisoned, just as I have been the constant victim of daily break ins and theft for two years at this residence while Harris County Police Deputies stood watch, apparently for the thieves. Same break-ins, same theft in Alaska.

Note: Homeland Security Stalking spray painted on garage, house barricaded to prevent constant break-ins. Same scenario we saw in the case of murdered Fresno activist John Lang where his home was barricaded, he was stabbed and died in his burning home one day after posting to a reporters social media account that the FBI was going to kill him.

Below is the audio recording said to be what the US diplomats in Cuba heard when attacked. This is what I have described as the tinnitus I have suffered from since the governments assaults escalated in 2016. There are many reports of those targeted by these terrorist agencies suffering the same effects, as with me this usually results in substantial hearing loss.

(the Associated Press hasn't explained the origin of the audio recording.)

This is close to the frequency produced by the weapons I have been assaulted with for years, though the tone and strength of the frequency often changes when traveling, showering, or if a trip is taken out of the city.

Allan Frey is credited with a discovery in the 1960s that led to research in both the United States and Russia on using microwaves as weapons.

Frey-Weapons Download

The Times said Frey was the first to discover that the human brain can perceive microwaves as sound, a revelation that led to experimentation with microwave weapons in both the Soviet Union and the United States.

A National Security Agency statement obtained by Washington lawyer Mark Zaid in 2014 said that a "hostile country" visited by a client in the late 1990s had "a high-powered microwave system weapon

that may have the ability to weaken, intimidate, or kill an enemy over time and without leaving evidence,” according to a copy of the statement published by the Times.

The statement said that “this weapon is designed to bathe a target’s living quarters in microwaves, causing numerous physical effects, including a damaged nervous system.”

The Times said the U.S. military also researched weapons applications of microwaves, with the U.S. Air Force registering a patent on an invention shown to beam comprehensible speech into someone’s head.

WASHINGTON — **Nonlethal weapons such as high-power microwave devices should be used on American citizens** in crowd-control situations before they are used on the battlefield, the Air Force secretary said Tuesday.

Domestic use would make it easier to avoid questions in the international community over any possible safety concerns, said **Secretary Michael Wynne**.

“If we’re not willing to use it here against our fellow citizens, then we should not be willing to use it in a wartime situation,” said Wynne. “(Because) if I hit somebody with a nonlethal weapon and they claim that it injured them in a way that was not intended, I think that I would be vilified in the world press.”

The Air Force has funded research into nonlethal weapons, but he said the service isn’t likely to spend more money on development until injury issues are reviewed by medical experts and resolved.

Nonlethal weapons generally can weaken people if they are hit with the beam. Some of the weapons can emit short, intense energy pulses that also can be effective in disabling some electronic devices.

As I was watchlisted by the terrorist Homeland Security agency, this website will experience constant hacking and manipulation by these state funded terrorist. This is accomplished through our nations corrupt FISA courts and is a tool that HLS, FBI, NSA, DOJ, CIA, FEMA, FUSION CENTERS, and the lower branches of their terrorist cells, use in the extension of the CIA’S Project Monarch program. This is torture, human experimentation, and murder that is being committed against activist, whistle-blowers, and ordinary civilians. Although Senate hearings were held in the seventies, these agencies used the attacks of 9/11 to take away basic human rights and launch these attacks on a vast number of innocent civilians. The targeting program being carried out against whistle blowers, activist and civilians is just an extension of the WWII NAZI program of experimentation, torture and mind control used on civilians ran by Josef Mengele. This is probably a result of Operation Paperclip and the integration of these NAZI scientist into the American

Government and NASA. It is apparent that members of our law enforcement and intelligence agencies are involved in this criminal activity. One must wonder if these groups have been infiltrated by terrorist agencies like ISIS or Al-Qa'ida which have formed Terrorist Cells within the USA government itself, the widespread knowledge that HLS, FBI, DOJ, Fusion Centers, Police, Neighborhood Watch, citizen corps, freedom corps, etc are taking part in this as well as many corporations that activity participate in this program or censor information about it in order to maintain its secrecy.

With documentation, evidence and intelligence agency professionals that testify of the targeted individual program, it can no longer be denied. Any agent or officer that questions this can only be seen as delusional. The denial of this program is commonplace in the law enforcement community where agents have the highest suicide rate of any profession as well one of the highest domestic abuse rates, it is unthinkable that these officers are not required to have semi annual mental examinations. When one shows that they are willing to hurt themselves or others, action must be taken to assure they dont.

With the overwhelming evidence and documentation of this program, we can easily see the same agencies that have turned the US into a surveillance state are actively censoring and manipulating all information about this program to cover up their participation in this NAZI like human experimentation, torture, and murder program of activist and whistle-blowers.

A simple google search will not only show this, but you will also see the propaganda that America has grown accustomed to in the fake news that has grown at a continuous rate since the 9/11 attacks. This brings to question, exactly what is the government willing to spend unlimited amounts of money to cover up?

Below was a PDF file that contained research on Harris County Policeman Sandeep Daliwah, I find it was linked to a Adult Game Ad? This is just part of the normal hacking, targeting that the FBI, HLS, NSA, take part in, it is really at a level of idiocy that they do things like this to leave their crimes as to looking so stupid who would believe these state funded terrorist act at such a level of stupidity.

The Sandeep Daliwah PDF, referenced the millions of dollars received by his family after his death, some from the sihks who were trained in active shootings by Homeland Security. Sandeep Daliwah was a United Nations Homeland Security officer working for the Harris county Police department. A search Sandeep Daliwah PDF, or homeland terror should locate the PDF file which is stored on numerous online PDF file sharing sites. I of course run no ads on this site and would never post adult material here.

this is the link that the malware was linked to, I will replace it with the PDF file.

Although I will try to gather information that is useful for other targeted individuals, this is my personal site so I will post to link the actions of these terrorist agencies to me personally.

I drew the attention of Federal and State agencies as I became the 9/11 grass-roots organizer for Alaska in 2002. As we look at the history of the CIA'S abuse on civilians that pursue such course, this is self-evident.

My Targeting escalated in 2012. This is when the 24/7 stalking began, the infiltration of all online accounts had began prior to this as I told many witnesses. As I was researching the Sandy Hook School Shooting, I was posting information on my website, MY FAVORITE MASON. This website is now on archive.org, yet I have embedded it and it can be seen in the pop down Links Tab.

I was interested in this event as I had noticed a lot of oddities in many of these post 9/11 events. As I researched this I found that FEMA held a drill (EXERCISE) at Sandy Hook School one year prior to this shooting, they also held a drill on the day of the shooting twenty minutes away from this event. I copied and pasted these facts in my website as links to my research.

I then found that the First Responder to this shooting incident, (William Halstead,) had an extensive history in Emergency Management, and with Homeland Security as well. BILL HALSTEAD PROFILE LINK:

Bill Halstead, MPA, CEM's Summary

Fire chief linked gangstalking campaign, as with my harris county stalking that took place after I was stalked and set up by the Harris County police this same noise harassment used. I have video after video of these terrorist stalking me after I was forced to sale my home for first cash offer after renewed stalking by harris county police after my release from jail on falsified charges. This continues till this day with first responder participation, now in Texas City Texas. These same terrorist, homeland security, FBI, Police, etc monitor, manipulate and infiltrate all internet and cellular communication as I prepare to fight these fraudulent charges. With the participation of the USPS they also stop the delivery of court related documents.

Rick and Cindy Krlich claim they've been beeped incessantly for 7 years. They're suing 40 neighbors and have filed hundreds of police reports They claim the honking is part of a well-orchestrated campaign against them stemming from a 2007 property dispute.

Rick Krlich tried to buy his neighbors' house when it was in probate court. He said it annoyed the well-connected Clementes who turned the town of against him. John and Marlene Clemente deny there's a campaign. Mr Clementes was the FIRE CHIEF. For the last seven years, Rick and Cindy Krlich claim they've been the target of 'terrorist honkers'.

The Hubbard, Ohio couple say motorists driving past their home have beeped more than 5,000 times out of revenge for trying to buy a neighbor's house in 2007. The married couple allege the honking, in addition to ongoing Harassment and Stalking, has ruined their lives and are suing 40 of their neighbors, including some of the small town's most prominent citizens. However their neighbors deny there's a 'small town terrorist campaign' against the Krlachs and insist the litigious pair are the ones disturbing the peace.

I do not believe in Conspiracy Theories, even the basic theories of gravity or relativity could be questioned, for they are just that, theories. I do believe in Criminal Conspiracies, the difference between these is a Criminal Conspiracy can be backed up with overwhelming documentation that supports this, the best documentation is often found released by the very criminals that are involved.

FOR SOME REASON SOME OF THE VIDEOS I POST ARE REMOVED?

So I will repost the below video with a account that has not stopped working for some reason. All I have left of many old websites are archived versions with endless videos that are linked to accounts that disappeared.

Wonder what there is that ties all of these missing videos together that could link there disappearance? I am baffled.

9/11 FOLLOW THE TRILLIONS.

There is no denial of the targeting of civilians, this event is not limited to the terrorist agencies within our own government. From the CIA, MOSSAD, MI5, MI6, etc we see these agencies taking part in this targeting program World Wide.

There is no denial of the systematic removal of information about the 9/11 terrorist attacks, the Sandy Hook School Shooting, The 7/7 London Bombing, 1993 WTC Bombing, Oklahoma City Bombing etc from the internet as well as from all social media platforms. Just as with the quick removal of the WTC debris and the shipment of this to China, this is nothing more than the destruction of evidence. The owners of the accounts that this information is removed from, are the individuals that are soon targeted by these terrorist agencies. Their very actions to silence the information of these crimes, once again points to the criminals that have knowledge of these actions and/ or took part in this.

I have been assaulted for many years by the government, I have endured cyber crime, cyber theft, assaults, broken bones, false imprisonment, drugging s, poisonings, constant repeated break-ins, stalking, vehicle tampering, set up by police, as well as uncountable other assaults. None of these compare with the assaults carried out by these agencies using electronic warfare technology. These are not uncommon, there are thousands and thousands of civilians that are reporting these same actions World wide.

These attacks were carried out against the US Diplomats in CUBA, this technology is used in Crowd Control Weapons and has been in over-sea conflicts by the US military.

These frequency weapons use a frequency close to that which is used in 5G technology. This has been spoken about for many years by many respectable individuals, one only needs to look as far as the top defense contractors for the United States to realize this technology has been developed and has been deployed. I firmly believe that this experimentation that has been carried out on targeted individuals is only a test run for a World-Wide assault that is/ or will be carried out against the entire civilian population. U.S. officials have concluded that American diplomats in Cuba were **exposed**—deliberately, they claimed—to harmful, high-frequency sounds that caused hearing loss, headaches and nausea.

The sonic attacks compelled some diplomats to leave **Cuba**, the officials said. A Canadian diplomat also reported suffering hearing loss while working in Havana.

"Article 5 of the Universal Declaration of Human Rights states: "No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment." This ban on torture and other ill-treatment has subsequently been incorporated into the extensive network of international and regional human rights treaties. It is contained in Article 7 of the International Covenant on Civil and Political Rights (ICCPR), ratified by 153 countries, including the United States in 1992, and in the Convention against Torture or Other Cruel, Inhuman or Degrading Treatment or Punishment (the Convention against Torture), ratified by 136 countries, including the United States in 1994.
